

The F34 Top Plate is a special base plate for F34/F34P trusses, but it is mostly used as a top plate of a truss stand. The top plate is compatible with the majority of moving lights which allows you to directly attach your light to the top plate, which is then attached to the truss.

The F34 Top Plate is safe, practical, saves time and opens up new possibilities for the user.

TECHNICAL SPECIFICATIONS

Dimensions	310 x 310 x 5mm
Truss Compatibility	F34 / F34P Truss Systems
Material	Aluminium 6061 T6
Weight	1.65kg

PRODUCT CODE

GT-TP-F34308	F34 Top Plate 308mm x 308mm x 50mm with Spigots, Pins & R-Clips
