- **Ovation Premium** – High-end cases for maximum performance and premium materials, built for the most demanding applications.
- **Custom Inserts** – Available; design fee policy applies

New Mother Trucker Packer

OV-MTP-6012076

Introducing the brand-new OV-MTP-6012076 Mother Trucker to the DQ Ovation Cases range – a versatile workhorse designed to transport everything from cables and LED panels to cameras and lighting fixtures.

Regularly spaced internal wall channels accommodate slide-in plywood dividers, enabling the creation of adjustable compartment sizes. These dividers can be further enhanced with custom CNC-cut foam inserts and/or trays to deliver a flexible, purpose-built fit-out. This adaptability supports rapid reconfiguration, ensuring the road case remains functional well beyond the service life of the product(s) it houses and protects.

TRUCKER PACKERS
